March 8, 2023

Dear Colleague,

The Consolidated Appropriations Act, 2023 appropriated \$360.46 million in **Community Project Funding (CPF)**, also known as Congressionally Directed Spending (CDS), for 125 projects in 32 States. A full list of selected projects can be found in Table 20 in FTA's FY 2023 Apportionment Tables, available [online](#) and listed below.

We are pleased to inform you that Congress has appropriated **\$2,797,500** for **Westchester County Department of Public Works & Transportation** in 2023 Community Project Funding for:

- **Route 9-RiverWalk Transit Connector**

The purpose of this letter is to provide you with key information about this funding, the process, the grant requirements, and how the funding will be administered by the Federal Transit Administration (FTA).

Grant Administration

All CPF grants will be awarded through FTA's Transit Award Management System (TrAMS). In order to receive the funds, recipients will need to prepare an electronic grant application in TrAMS. Please note the Project ID for your project in the table below; existing FTA recipients with TrAMS access should be able to initiate their project application in a similar fashion to other FTA grants.

Grant Requirements

More detailed guidance on requirements associated with FY 2023 CPF grants will be included in the forthcoming FY 2023 Apportionments Notice. However, as you proceed with project development, be aware that generally applicable Chapter 53 requirements apply to these funds, including:

- the planning requirements of Sections 5303 and 5304;
- bus testing requirements of Section 5318;
- general provision requirements of Section 5323 (such as NEPA and Buy America compliance);
- contract requirements of Section 5325;
- project management requirements of Section 5327;

Community Project Funding 2023

- nondiscrimination requirements of Section 5322;
- disposition requirements of Section 5334;
- and applicability of FTA oversight of Section 5338.

Also note that 20 percent non-federal match is required for these grants.

Additional requirements may apply if the CPF funds will go toward a current or future Capital Investment Grants (CIG) or Expedited Project Delivery (EPD) project. Recipients should coordinate with their FTA regional office before obligating or expending any CPF funding related to a current or future CIG or EPD project.

Pre-Award Authority

CPF projects are subject to the same pre-award authority requirements as other FTA grant programs, which will be further described in the FY 2023 Apportionments Notice. Generally, pre-award authority allows recipients to incur certain project costs before grant approval and retain the eligibility of those costs for subsequent reimbursement after grant approval. The recipient assumes all risk and is responsible for ensuring that all conditions are met to retain eligibility. For transit capital projects, the date that costs may be incurred varies depending on the type of activity and its potential to have a significant impact on the human and natural environment. Please verify the applicability of pre-award authority with your FTA regional office before incurring expenses.

Contact Information and Next Steps

FTA Region 2 should be the primary contact for CPF project questions, and a specific contact for your project is Uzoma Anukwe and can be reached at Uzoma.anukwe@dot.gov.

We look forward to working with you to successfully deliver these public transportation projects for your communities.

Sincerely,

For Stephen Goodman, PE
Regional Administrator
